

Swiveling Sliding Transfer Bench

The swiveling sliding transfer bench provides extra sense of security and convenience when transferring in and out of the tub. Sturdy nature of the blow molding seat, featuring the swiveling plate at the center, the bench allows users to turn easily while maintaining perfect balance. There are receptacles on the seat for shower head and accessories like handle and soup dish. Back rest is removable, and the bench can be folded flat for storage and transport.

Product Features

Foldable frame

Frame and the seat can be folded without tool for storage and transportation.

Blow-molded seat and back rest

Sturdy, lightweight, anti-slip and easy to clean.

Accessories

Accessories for choice and available for customization.

Swiveling plate

Installed on center of the seat, making the bench sturdy and maneuverable.

Anodized aluminum frame

Polished surface, rust-proof, strong and lightweight.

Adjustable frame height

2.54 cm increments, providing maximum tub clearance of 47.5 cm.

Suction cup feet grip

Prevents the bench from moving on wet floor.

Sliding feature

Slides left and right, locking at each end.
